## Community Reintegration After Imprisonment: Perspectives from Advocates and Clinicians

Tuesday, October 24, 2023 @ 4:30PM ET

The **prison industrial complex** disproportionately impacts racial and ethnic minorities, with **lasting effects on social, economic and health outcomes for incarcerated individuals**. Reintegration into the community after imprisonment is a particularly sensitive time, and ways to ensure safe transitions are an important part of medical care.

This month's Social Medicine Rounds will explore **abolitionist perspectives on the U.S. criminal justice system** and how clinicians and advocates can improve outcomes for those impacted by it.

Join us on Oct 24, 2023 4:30PM ET for this conversation featuring founder and advocate, Ms. Topeka Sam, and Monte alumnus Dr. Catherine Trimbur.
